**SUPPLEMENTAL RESPONSE TO ADMINISTRATIVE LAW JUDGES'S RULING
OF OCTOBER 11, 2001**

On October 17, 2001 Dynegy Energy Services, Inc. ("Applicant" or "DES") submitted in the above-captioned matter a response to the Administrative Law Judge's ruling of October 11, 2001. Applicant submits this supplemental response to its October 17, 2001 response to the Administrative Law Judge's ruling of October 11, 2001.

The License or Permit Bond

Attached is a copy of a bond executed by Applicant in favor of the "People of the State of Illinois" as well as a rider indicating that the bond is continuous. This bond was inadvertently attached to the October 17, 2001 response filed by Illinois Power Energy, Inc. in Docket No. 01-0634.

Filing Requirements Under Subpart C of Part 451

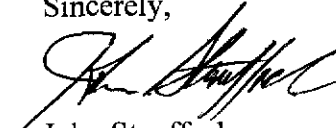

In its October 17, 2001 response Applicant stated that it intends to serve retail customers with minimum electrical demands of one megawatt or more throughout the State of Illinois. Applicant currently is certified to serve this class of customers. Applicant would like to clarify that it is requesting that the Commission grant it certification for authority to serve nonresidential customers with annual electrical consumption greater than 15,000 kWh.

These certification requirements fall under 83 Ill. Adm. Code 451 Subpart C. The Applicant would like to clarify that any reference in paragraph 17 of its application and any reference in its response to the Administrative Law Judge's Ruling of October 11, 2001 to 451.110 should have been to 451.220.

Parental Guaranty

Attached to Applicant's October 17, 2001 response to the Administrative Law Judge's Ruling of October 11, 2001 as Attachment D was a Parent Guaranty Agreement that lists all Illinois utilities as beneficiaries. In its response the Applicant referred to the Parent Guaranty as a revised Parent Guaranty. Applicant would like to clarify that the Parent Guaranty submitted with that filing was not a revised Parent Guaranty but an original Parent Guaranty.

Sincerely,

John Stauffacher
